Connecting the Unconnected

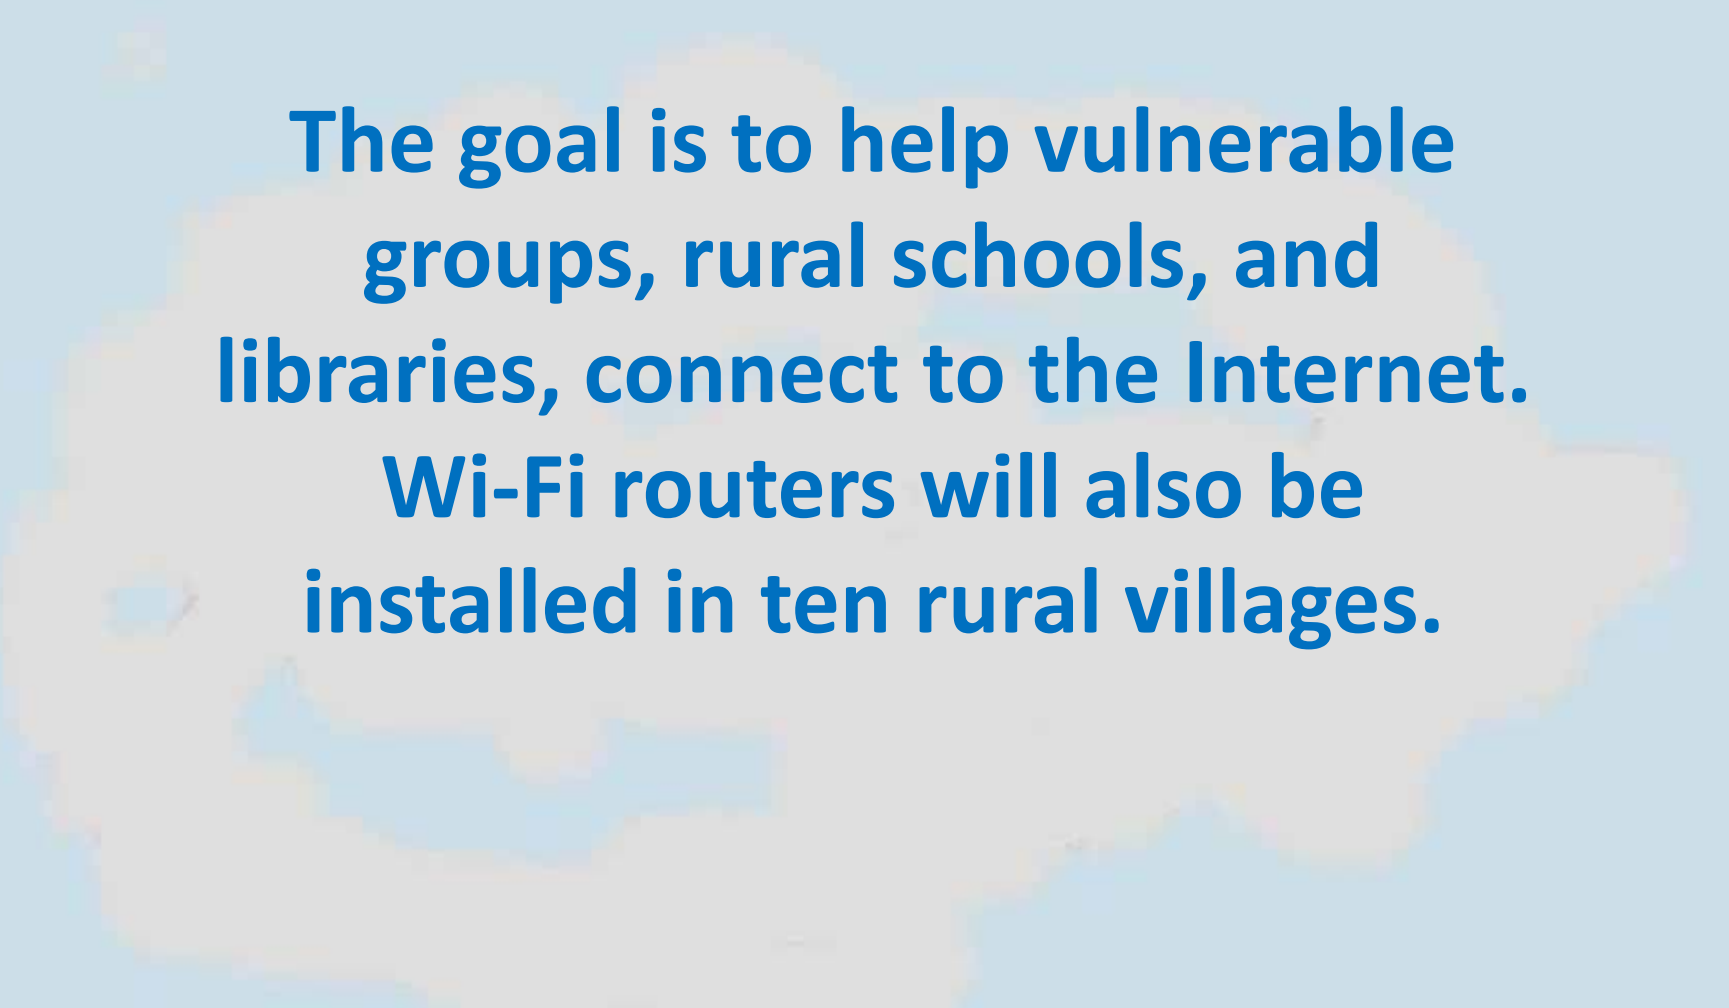

Chapterthon 2019

ISOC Armenia Chapter project

**Connecting unconnected schools,
libraries and disabled people public
organizations of Armenia to the
Internet**

The goal is to help vulnerable groups, rural schools, and libraries, connect to the Internet. Wi-Fi routers will also be installed in ten rural villages.

Hrazdan city pensioners employment club

Three computer and Wi-Fi router with broadband Internet connection were installed. Internet literacy training was provided.

As a result 108 new users will be get access to the Internet.

Hrazdan pensioners occupation club

Hrazdan pensioners occupation club expresses its deep gratitude to the ISOC Armenia chapter for providing 3 computers that will permit 108 members of the club to have Internet access.

Hrazdan pensioners occupation club

Ashtarak city school

Two computers were provided
The school has 3 computers for more than 100 schoolchildren. It is a limiting factor. It is too few for more than 100 schoolchildren. Installing additional computers will increase by 10-15 the number of schoolchildren having access to the Internet.

Ashtarak city school #2

Ashtarak city school #2 thanks the ISOC Armenia chapter for providing 2 computers that will let 15 more schoolchildren to have Internet access.

Yerevan. Auxilium AM Charity Foundation

Two computers were provided to disabled young people for on-line training. As soon as a disabled person passes the training, the computer will be provided to the next person in the queue consisting of 12 persons.

Auxilium AM Charity Foundation thanks ISOC Armenia Chapter for providing 2 computers that will let up to 12 young disabled people pass on-line training and get a job.

Vazashen village school

Three computers and a Wi-Fi router with broadband Internet connection will be installed. Providing a broadband router and 3 additional computers will potentially add 105 Internet users.

Khachik village school

Two computers and a Wi-Fi router with broadband Internet connection are installed that will add about 50 Internet users.

Khachik village school

Khachik village school thanks ISOC Armenia chapter for providing 2 computers and a WiFi router that will provide Internet access to more than 50 schoolchildren.

A computer with broadband Internet is provided for a disabled woman (Master of Public Administration, Master of Arts, Political Science). She is helping the Chapter with the management of programs.

Hrazdan city libraries

Wi-Fi routers with broadband Internet connection are installed. It provides free of charge Internet to all library visitors having smartphones. We estimate the total number of libraries beneficiaries as 160.

One computer was provided to the Hrazdan city
municipality cultural center
